

SCCUDD Monthly Memo

Volume 1, Issue 4, July 2015

SCCUDD shares its message at the Waterfront Festival and the Montour Falls Fire Department Festival

SCCUDD hosted a booth both days of the Waterfront Festival this year with the help of youth from STAND. At the booth, visitors could learn about the consequences of underage drinking and the use of other drugs. Also available to visitors were:

- Fatal Vision goggles to learn how drinking can impair your ability to do simple tasks like walking in a straight line or playing catch
- Schuyler County Drug Use Jeopardy to learn how Schuyler County compares to the overall U.S. when it comes to youth use of alcohol and other drugs
- “What is a standard drink” display to learn how different types of alcohol have different standard drink amounts

A special thank you to Watkins Glen Promotions for donated tent space at the festival and the Council on Alcoholism and Addictions for lending SCCUDD their Fatal Vision goggles. SCCUDD would also like to thank their youth group STAND, for their help designing the games and activities for the booth and helping to run the booth on Saturday.
