Volume 1, Issue 7, October 2015

### SCCUDD Organizes Community Forum about Meth

The community forum, titled “Emerging Drug Concerns Part I: Meth,” is the first in a series of forums planned by the Coalition. The event will take place Oct. 26 from 6:30 p.m. to 8 p.m. at the Watkins Glen Elementary School auditorium.

The forum will host a panel of expert speakers from the community who will teach attendees what meth labs look like and what to do if they come across one. The community forum will also discuss the physical effects of meth and the societal impacts it has on the county. Community members in recovery will also share their stories and discuss their paths to recovery.
